PROFILE

Highly motivated and detail-oriented Full-Stack Web Developer driven to deliver efficient and elegant code through excellent time management and a constant pursuit to improve. Skilled in a diverse range of programming languages, including JavaScript, Python, HTML, and CSS with hands-on experience in popular frameworks such as React, and Node.JS and scripting languages such as SASS. Adept at collaborating with cross-functional teams, fostering a harmonious work environment, and translating technical jargon into easily understandable terms for project stakeholders. Enthusiastic about staying up-to-date with the latest industry trends and continuously expanding skill set to meet the evolving demands of web development.

PROFESSIONAL EXPERIENCE

Volunteer | Leo District 2-X1 President

District 2-X1 Leo Club

08/2019 - 05/2023

Worked with volunteering groups to improve community well-being through food drives and health drives. Focused my efforts on outreach through social media to attract new volunteers and make service events more impactful.

- Coordinated a raffle fundraiser, raising more than \$300 for the Yemen humanitarian crisis.
- Implemented a social media marketing plan, where the fundraising events were tailored to attract middle-aged adults and tailoring service-related events to attract high school students, increased volunteer participation and funds.
